Experience Milan

Host.

Optec S.p.A.

Description.

Founded in 1985, Optec S.p.A. is a leading company specialized in the design, development, and production of advanced optical and optoelectronic systems. With a strong commitment to innovation and excellence, Optec serves different industries, including aerospace, defense, biomedical, industrial automation, and scientific research.

During this visit, participants will gain insight into the day-to-day activity of a large company specialized in cutting edge optical solutions for precision and reliability. They will spend the afternoon with Optec's team, interacting with experts in the field of optical design, physics and engineering. They will experience a visit to laboratories and a networking session with Optec key-professional figures to gain an insight into a future professional life in Photonics.
